

Environmental Policy

It is the policy of The Waste Company (UK) Limited to reduce its Environmental Footprint while providing UK clients with specialist Waste Management services. This policy extends to the administration and operational services provided to support their core activities.

In delivery of these services the management of staff of The Waste Company (UK) Limited are committed to:

- The continual improvement of the Environmental Management System and the overall Environmental performance.
- The prevention of pollution.
- Compliance with Environmental legal and industry standards, including relevant requirements for waste brokers.

To achieve these commitments an Environmental Management System, in conformance with the requirements of ISO 14001:2015, has been developed and implemented. This Environmental Management System covers all activities and is communicated to staff via a relevant training programme.

The Environmental Management System defines the Environmental Aspects and Impacts as well as the controls which are designed to control these aspects. These impacts are reduced via the implementation of the controls as well as the setting and achieving of Objectives and Targets.

The overall aim of the Environmental Management System is:

The prevent pollution by:

- Controlling emissions to land, air and water from all of its activities.
- Promoting the sustainable use of natural resources, raw materials and energy.
- Taking into account environmental issues and applying best practice in the procurement process.
- The adoption of a strategy of waste minimisation via reduction, reuse and recycling.

This policy is reviewed and updated on an ongoing basis, to ensure its continued effectiveness. The Policy is made available to interested parties and members of the public upon request and it is published on the company's website.
